Lydia Mondavi, of the legendary Napa Valley Wine family created 29 utilizing the powerful anti-oxidant power of grape seeds, a natural byproduct of the Mondavi family's winemaking.

29's exclusive Grape Seed Age-Protecting™ formula captures the skin's natural radiance by nourishing and protecting the skin with the potent power of anti-oxidants.

"Grape seed extract is 50 times more efficient than Vitamin E and 20 times more efficient than Vitamin C as free scavengers. This super anti-oxidant neutralizes the destructive efforts of free radicals, protects the skin collagen for healthy elasticity and suppleness and combats the signs of aging", Mondavi states.
